(20 min) Resource Sharing: Give One, Get Two

- Invite each teacher to find a partner who started with a different letter.
- Then, invite pairs to share their “give one” resource with each other, using the “get two” portion of the [Graphic Organizer](#) to take notes on the resource they are receiving.
- Then, switch partners and repeat the activity so that each teacher shares the resource they explored on the site, or the resource “given” to them in the first round.
- By the end, each teacher “gets” two different resources from partners.

(10 min) Whole Group Share Out & Closing

- To close, invite teachers to debrief the activity, using the following prompts:
 - An idea I’m taking away or going to implement from today’s activity is...
 - A question or wonder I’m still thinking about is...

Talking Points for Resource Walk: Home Language Development

Part 1: Introducing the Multilingual Learning Toolkit

- Today we are going to explore a website called the Multilingual Learning Toolkit: www.multilinguallearningtoolkit.org.
- The website is a collection of resources and best practices specifically for educators who support young Multilingual Learners (MLs).
- Some are articles and videos for your learning; others are templates and teaching strategies you can use in the classroom.
- All the resources have been carefully curated by professionals in the field, and you can be confident that everything in the Toolkit is high-quality.
- The site and all of the resources are free and available to all.
- Click “sign in” at the top right, and then click “Please create an account here.”
 - Accounts are free—this will enable you to create a “Favorites Library” on the site and save resources in which you’re interested.
 - [Give teachers time to create an account.] (5 minutes)
- How the site is organized:
 - The different parts of the site are listed at the top.
 - If you click “Starter Guide” you’ll be able to read a description of some foundational principles about teaching MLs.
 - All of the resources are under “[Strategies & Resources](#)”—please click there.
 - Scroll down and you’ll see eleven different instructional topic areas. Today, we’ll focus on [#7 Home Language Development](#)—please click there.
 - The page has a description of what home language development is all about, followed by “Strategies in Action,” which are profiles of different teachers using strategies to engage with MLs.
 - Below that are a series of evidence-based strategies for supporting home language development.

Part 2: Introducing Home Language Development

- Teachers who are not proficient in the child’s home language can still take important steps to support it.
- For example, teachers can learn and use key words in the home language and provide opportunities for children to hear their home language in class.

- These practices will help create a welcoming classroom environment where each child, culture, and language background is valued and children are excited about language diversity.
- It can also help English-only speaking children understand that other languages exist and have different characteristics (an aspect of metalinguistic awareness), and foster respect for other languages and cultures.
